Digital whispers What can technologies tell us about humans & cities?

Prof. <u>Vassilis Kostakos</u>
Director, Center for Ubiquitous Computing
University of Oulu

24 August 2016 Summer School on Smart Cities, Vienna, Austria

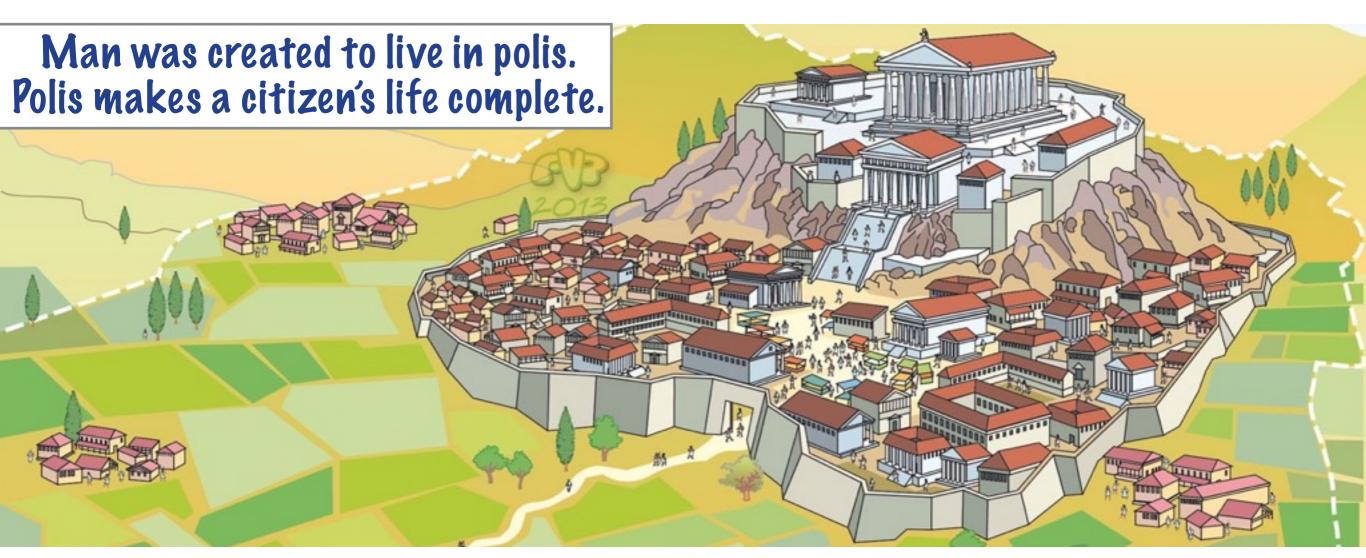

The "supreme good" for a polis is...

Self sufficiency

Self sufficiency

Humans do not make cities

Humans do not make cities

Cities make us human

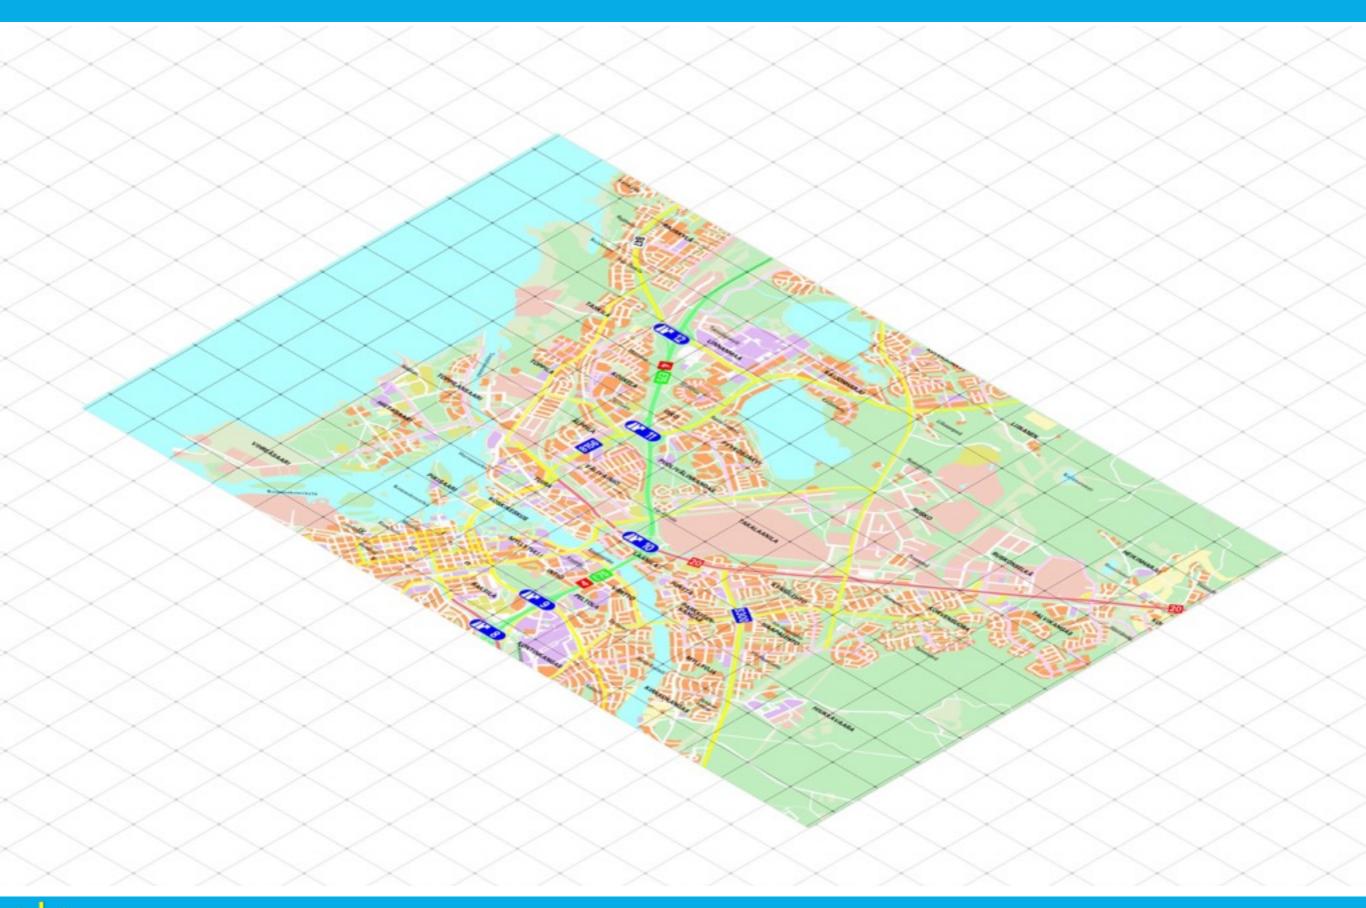

Cities make us human

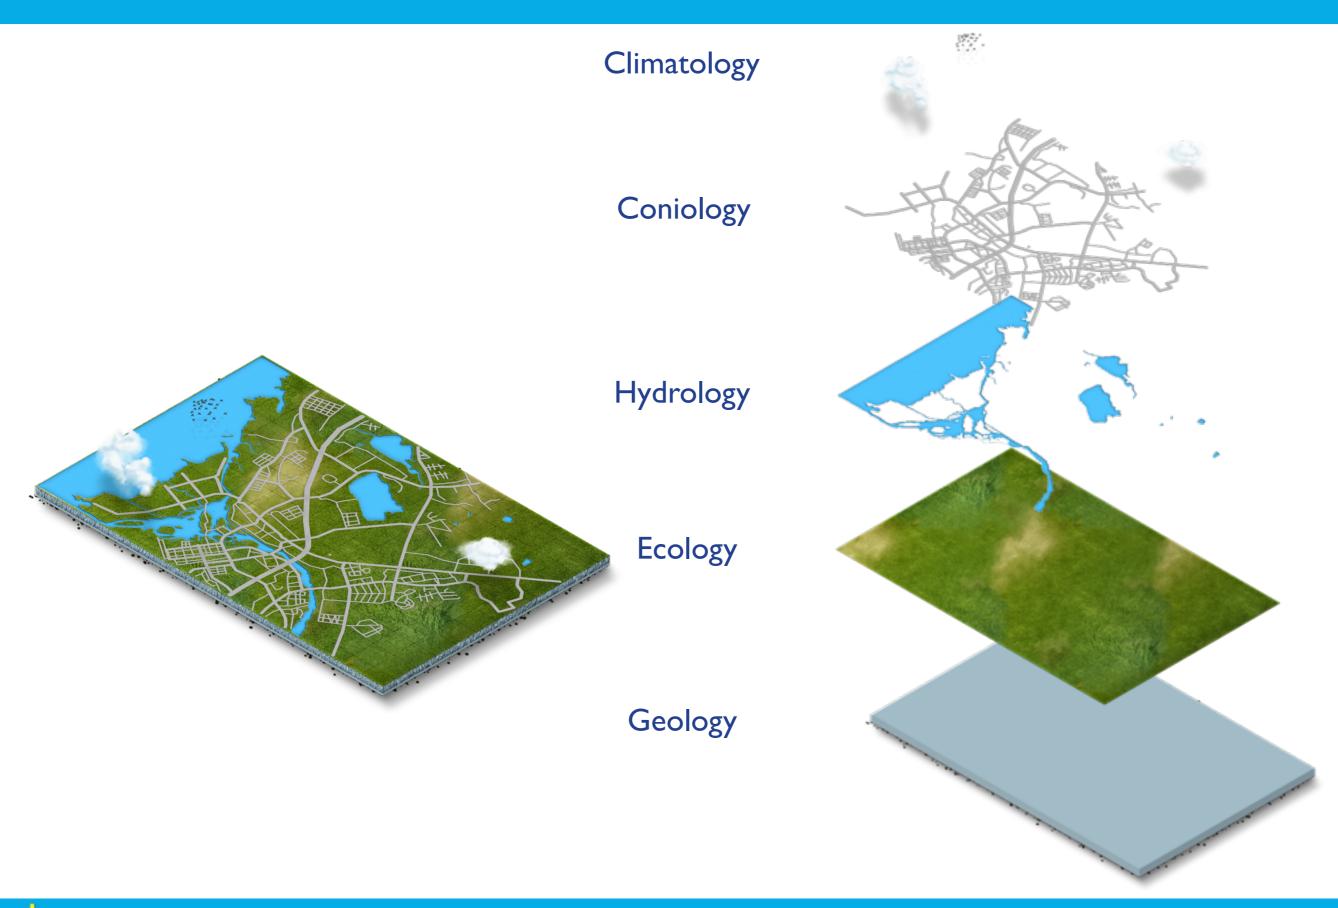

Study cities to understand humans

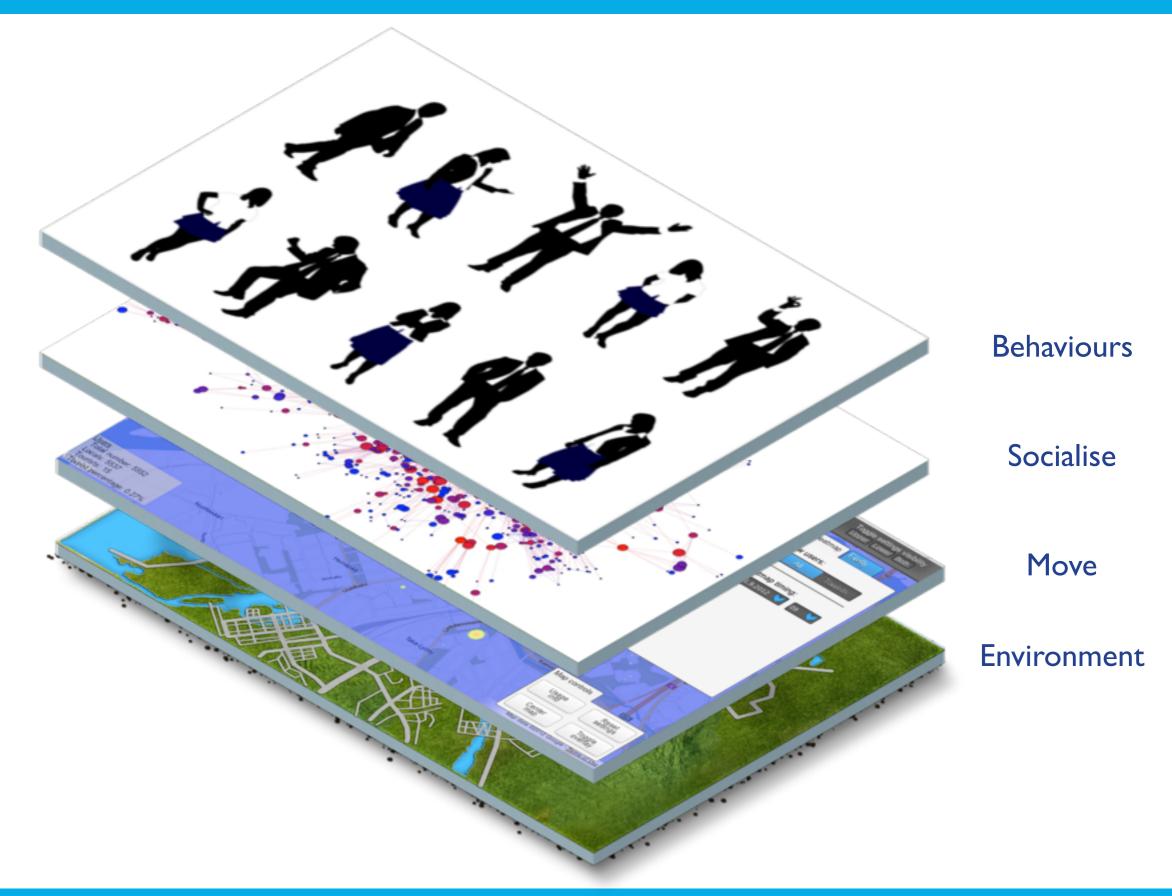

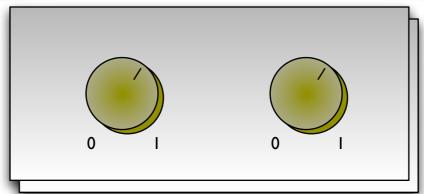

Pedestrians Tourists Daily/time Transport needs Effect of shops

Move: universality

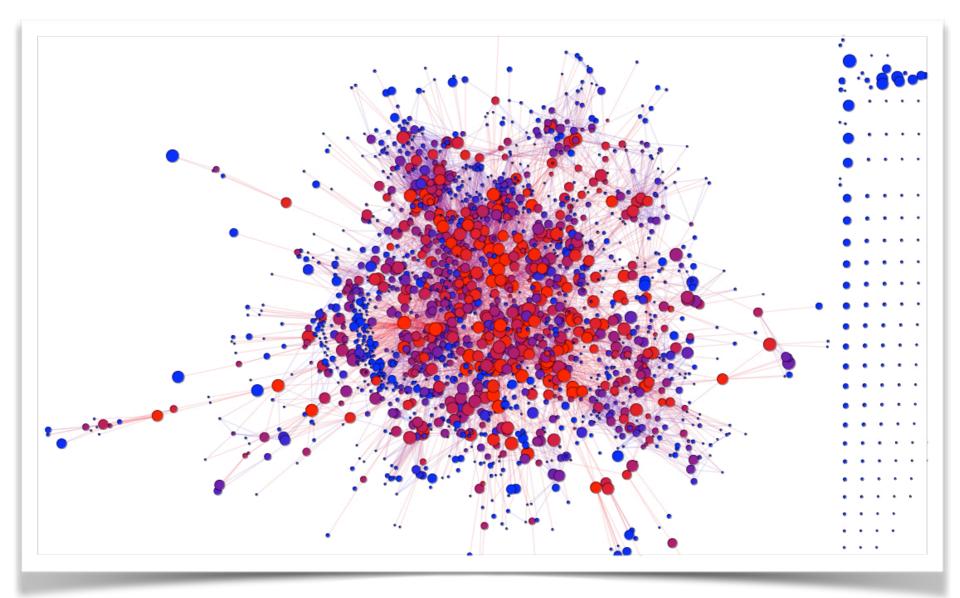

Socialise: small world

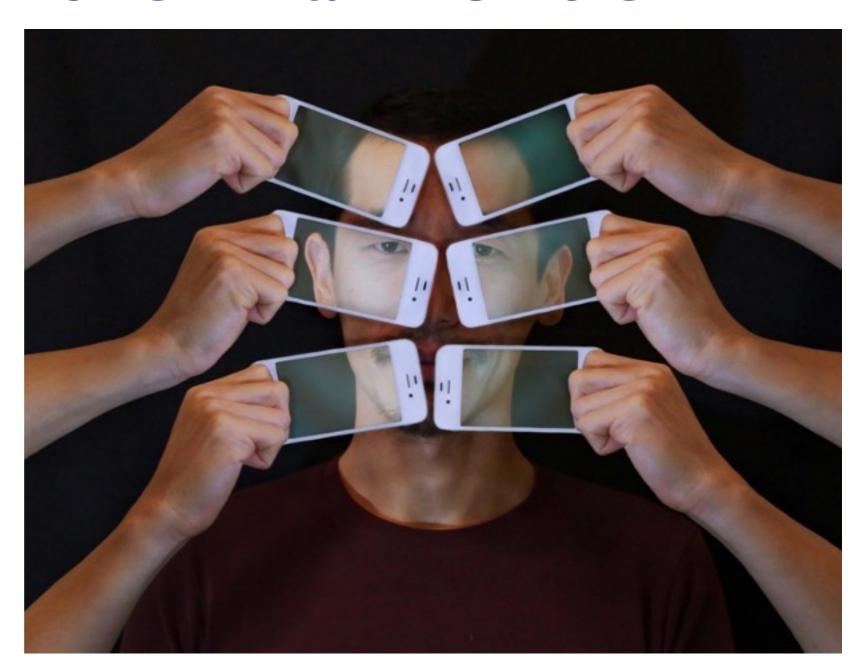

Encounters
Social isolation
Quality of life
Key times
Key locations

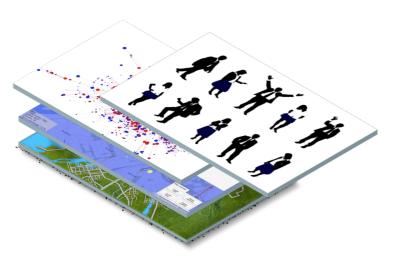

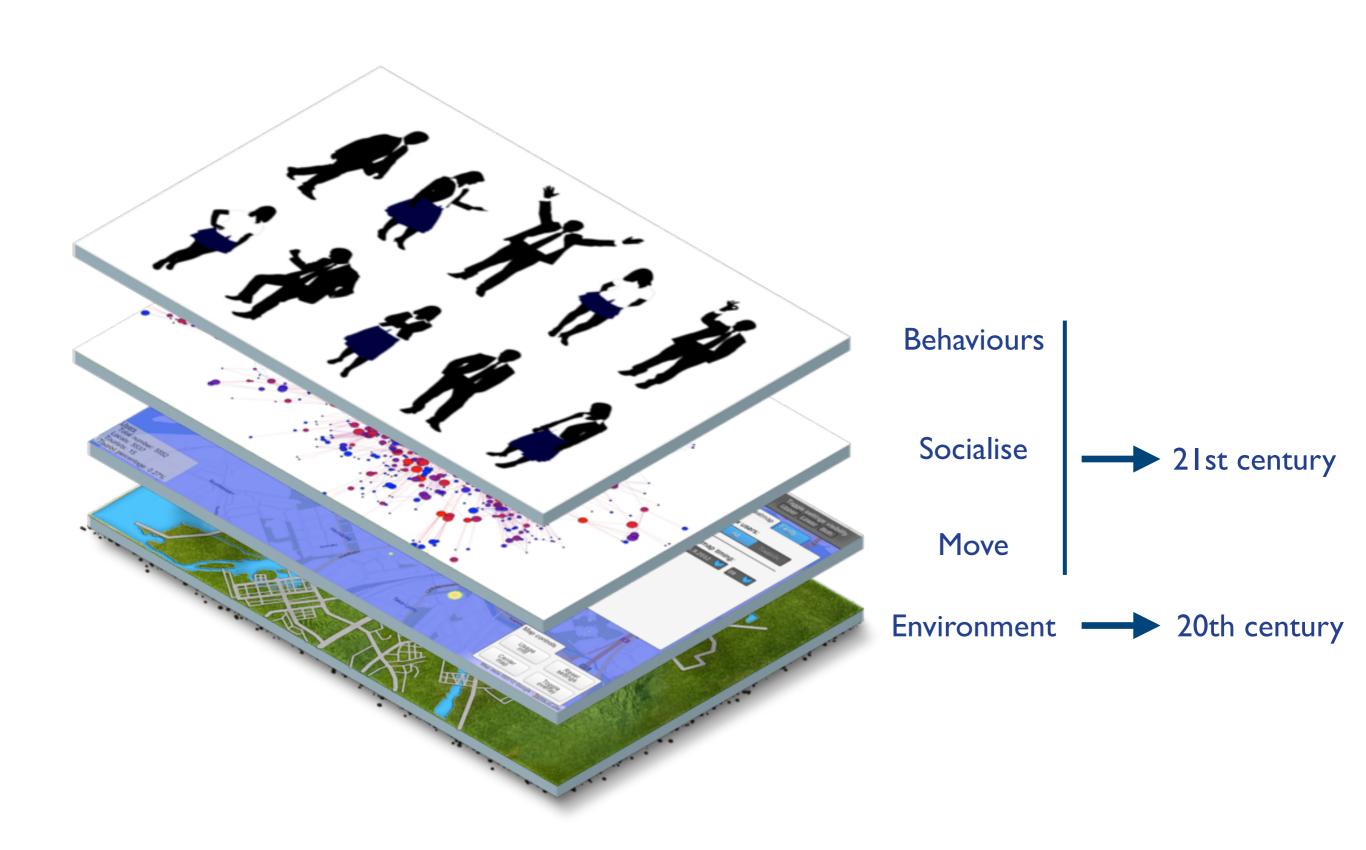

Depression
Schizophrenia
Drunk
Pain
Happiness
Leadership
Introversion

Behaviours: the final frontier

A grand challenge for smart cities

Capture, Understand, Cultivate behaviours

End of Part I
